

電動車遊世界

# 自我介紹及創作理念

大家好我是王灤賢，我今年15歲，我的興趣是畫畫、打太鼓。我的作品是「電動車游世界」，我畫的是爸爸有一台皮卡丘發電的電動車，幻想著爸爸開車帶我去看燈塔、去埃及看金字塔、最後我還把金字塔搬回我家，不只形狀變成金字塔，最後連我們自己也變得跟金字塔一樣，我到醫院看牙，醫院好像受到金字塔病毒感染一樣，整個空間變成塊狀亂碼。

電動車遊世界

爸爸有一台電動車，  
是皮卡丘發電的電動車。

校外教學我和同學們去東北角看燈塔，

好希望爸爸也能開著電動車帶我去看燈塔、吹海風。

我在旅遊節目上看到埃及金字塔，

好希望爸爸也能開著電動車帶我去看看埃及的金字塔

我只好幻想一下我把金字塔搬回家

幻想一下金字塔開始格式化，

最後連我們自己也變得跟金字塔一樣。

The background is a vibrant, abstract drawing created with thick, textured strokes of various colors including red, green, blue, yellow, purple, and brown. The composition is dominated by a large central circle with a multi-colored interior. To the left and right are tall, stylized figures with large, expressive faces and blocky bodies. The rightmost figure has a prominent yellow cross on its head. Scattered around are smaller, simple shapes like a red cup, a green mug, and a blue and green hanging object. The overall style is reminiscent of children's art or a folk-art aesthetic.
