〈珍惜水資源〉

我的名字叫吳庭緯，來自新竹縣竹北市，目前就讀竹仁國小五年級。地球氣候急遽變遷，極端氣候正在世界各地上演，不是雨下不停造成洪水災害，就是久不下雨造成乾旱水源枯竭。不僅人類生活受到影響，就連動物也要努力尋找水源以求生存。氣候變遷成因複雜，但人類活動的確難辭其咎。在人類還有乾淨的一口水可以喝時，是否也該反思一下人類的行為模式對於水文，甚至於整個地球的危害呢？

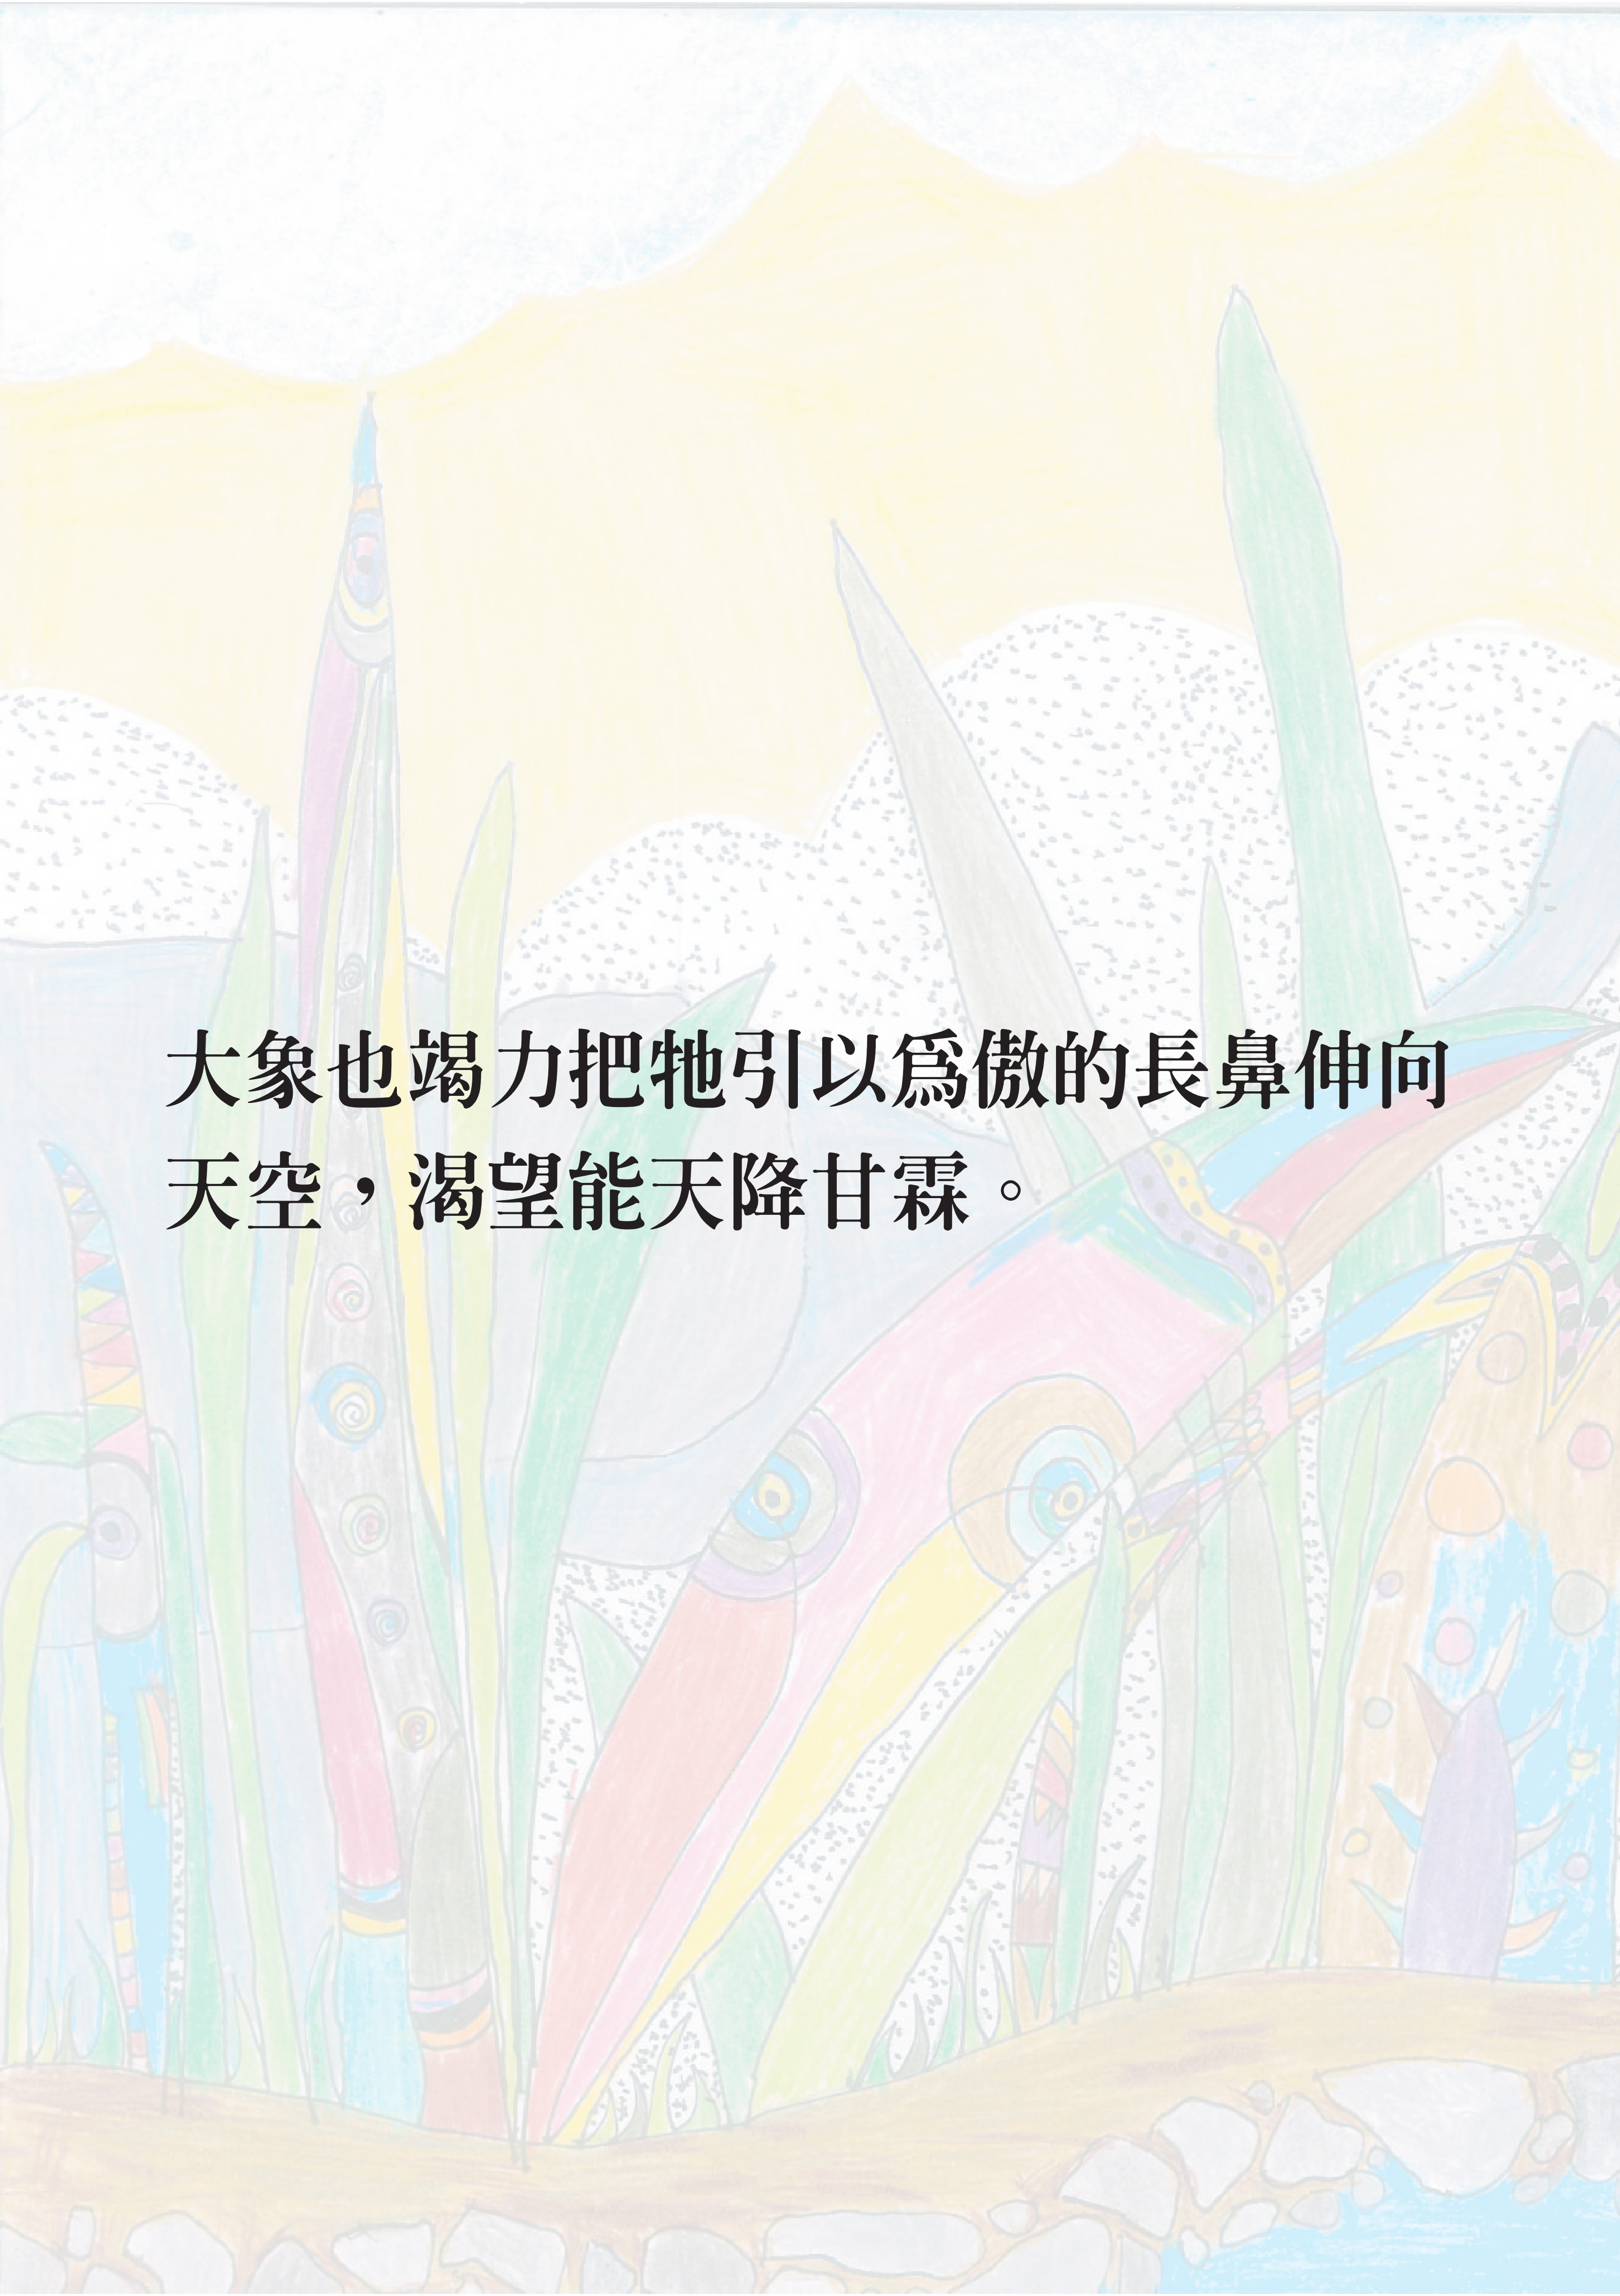

長頸鹿只恨自己脖子不能再長一點，
才能眺望遠方，尋找水源。就連鱷魚
和小豬也休兵，紛紛瞪大著雙眼尋找
水源。

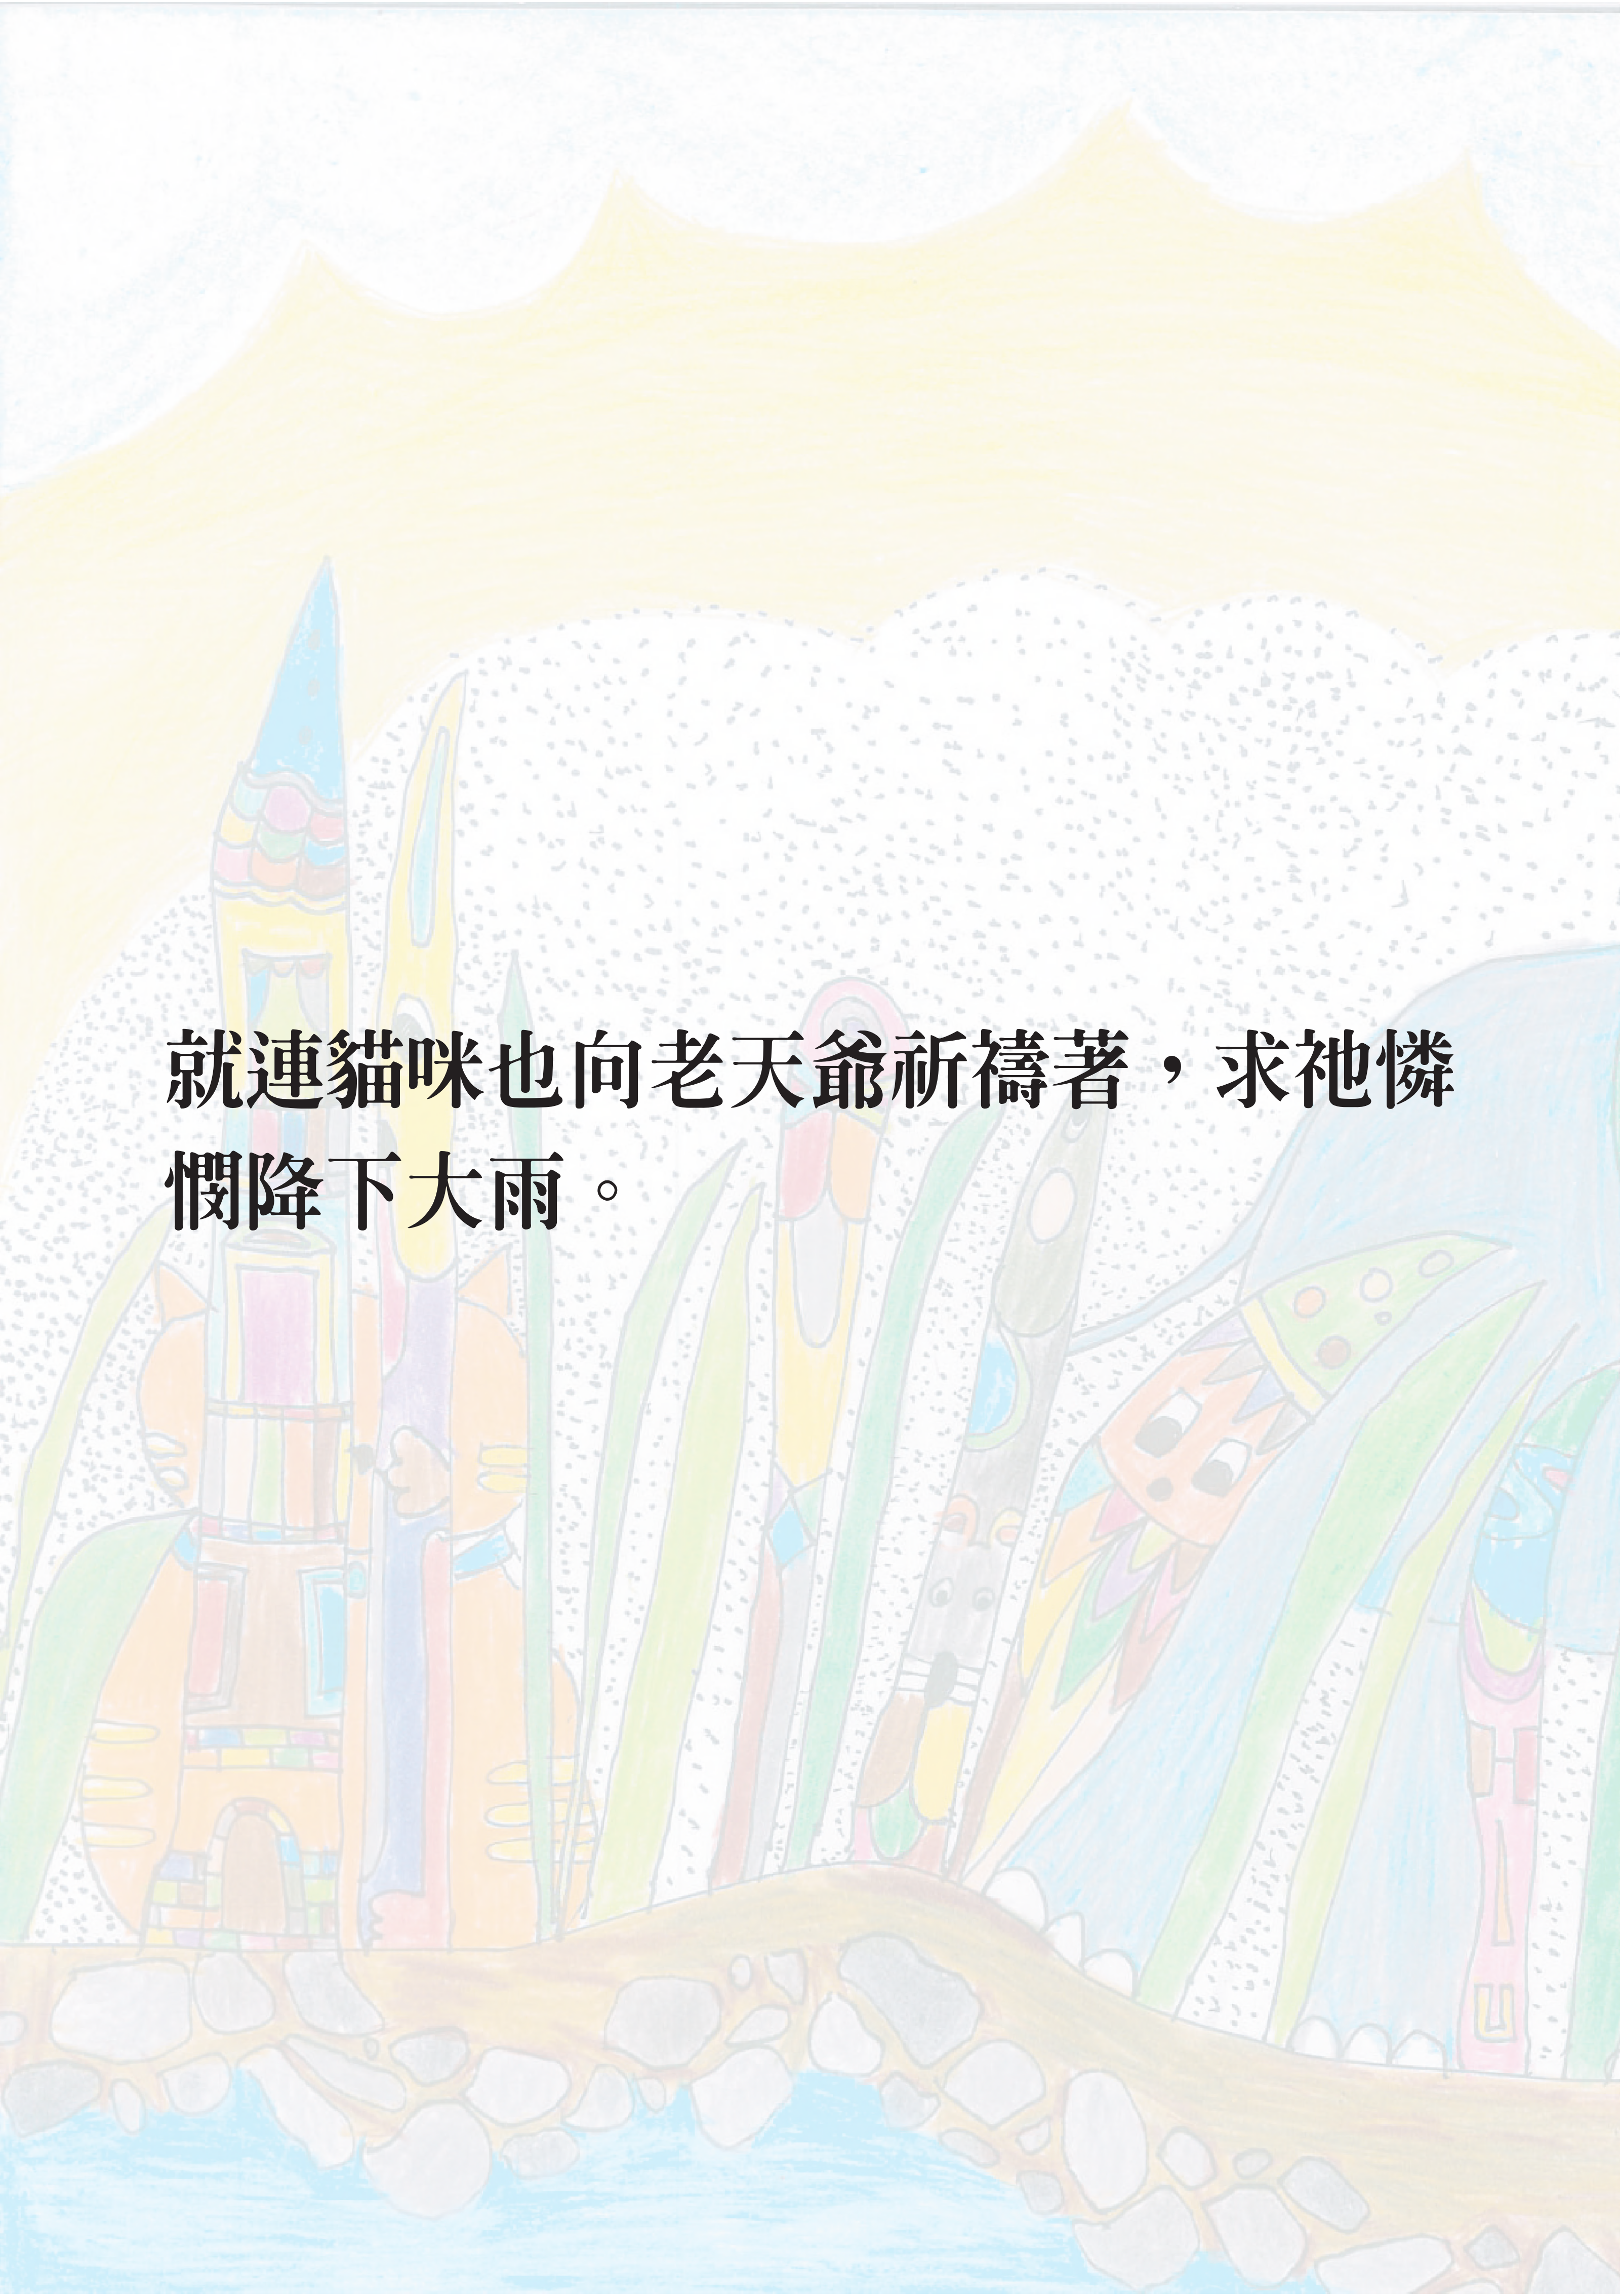

小老鼠東嗅嗅西聞聞，企圖尋找一絲
水的味道，
希望能找到有水的地方。

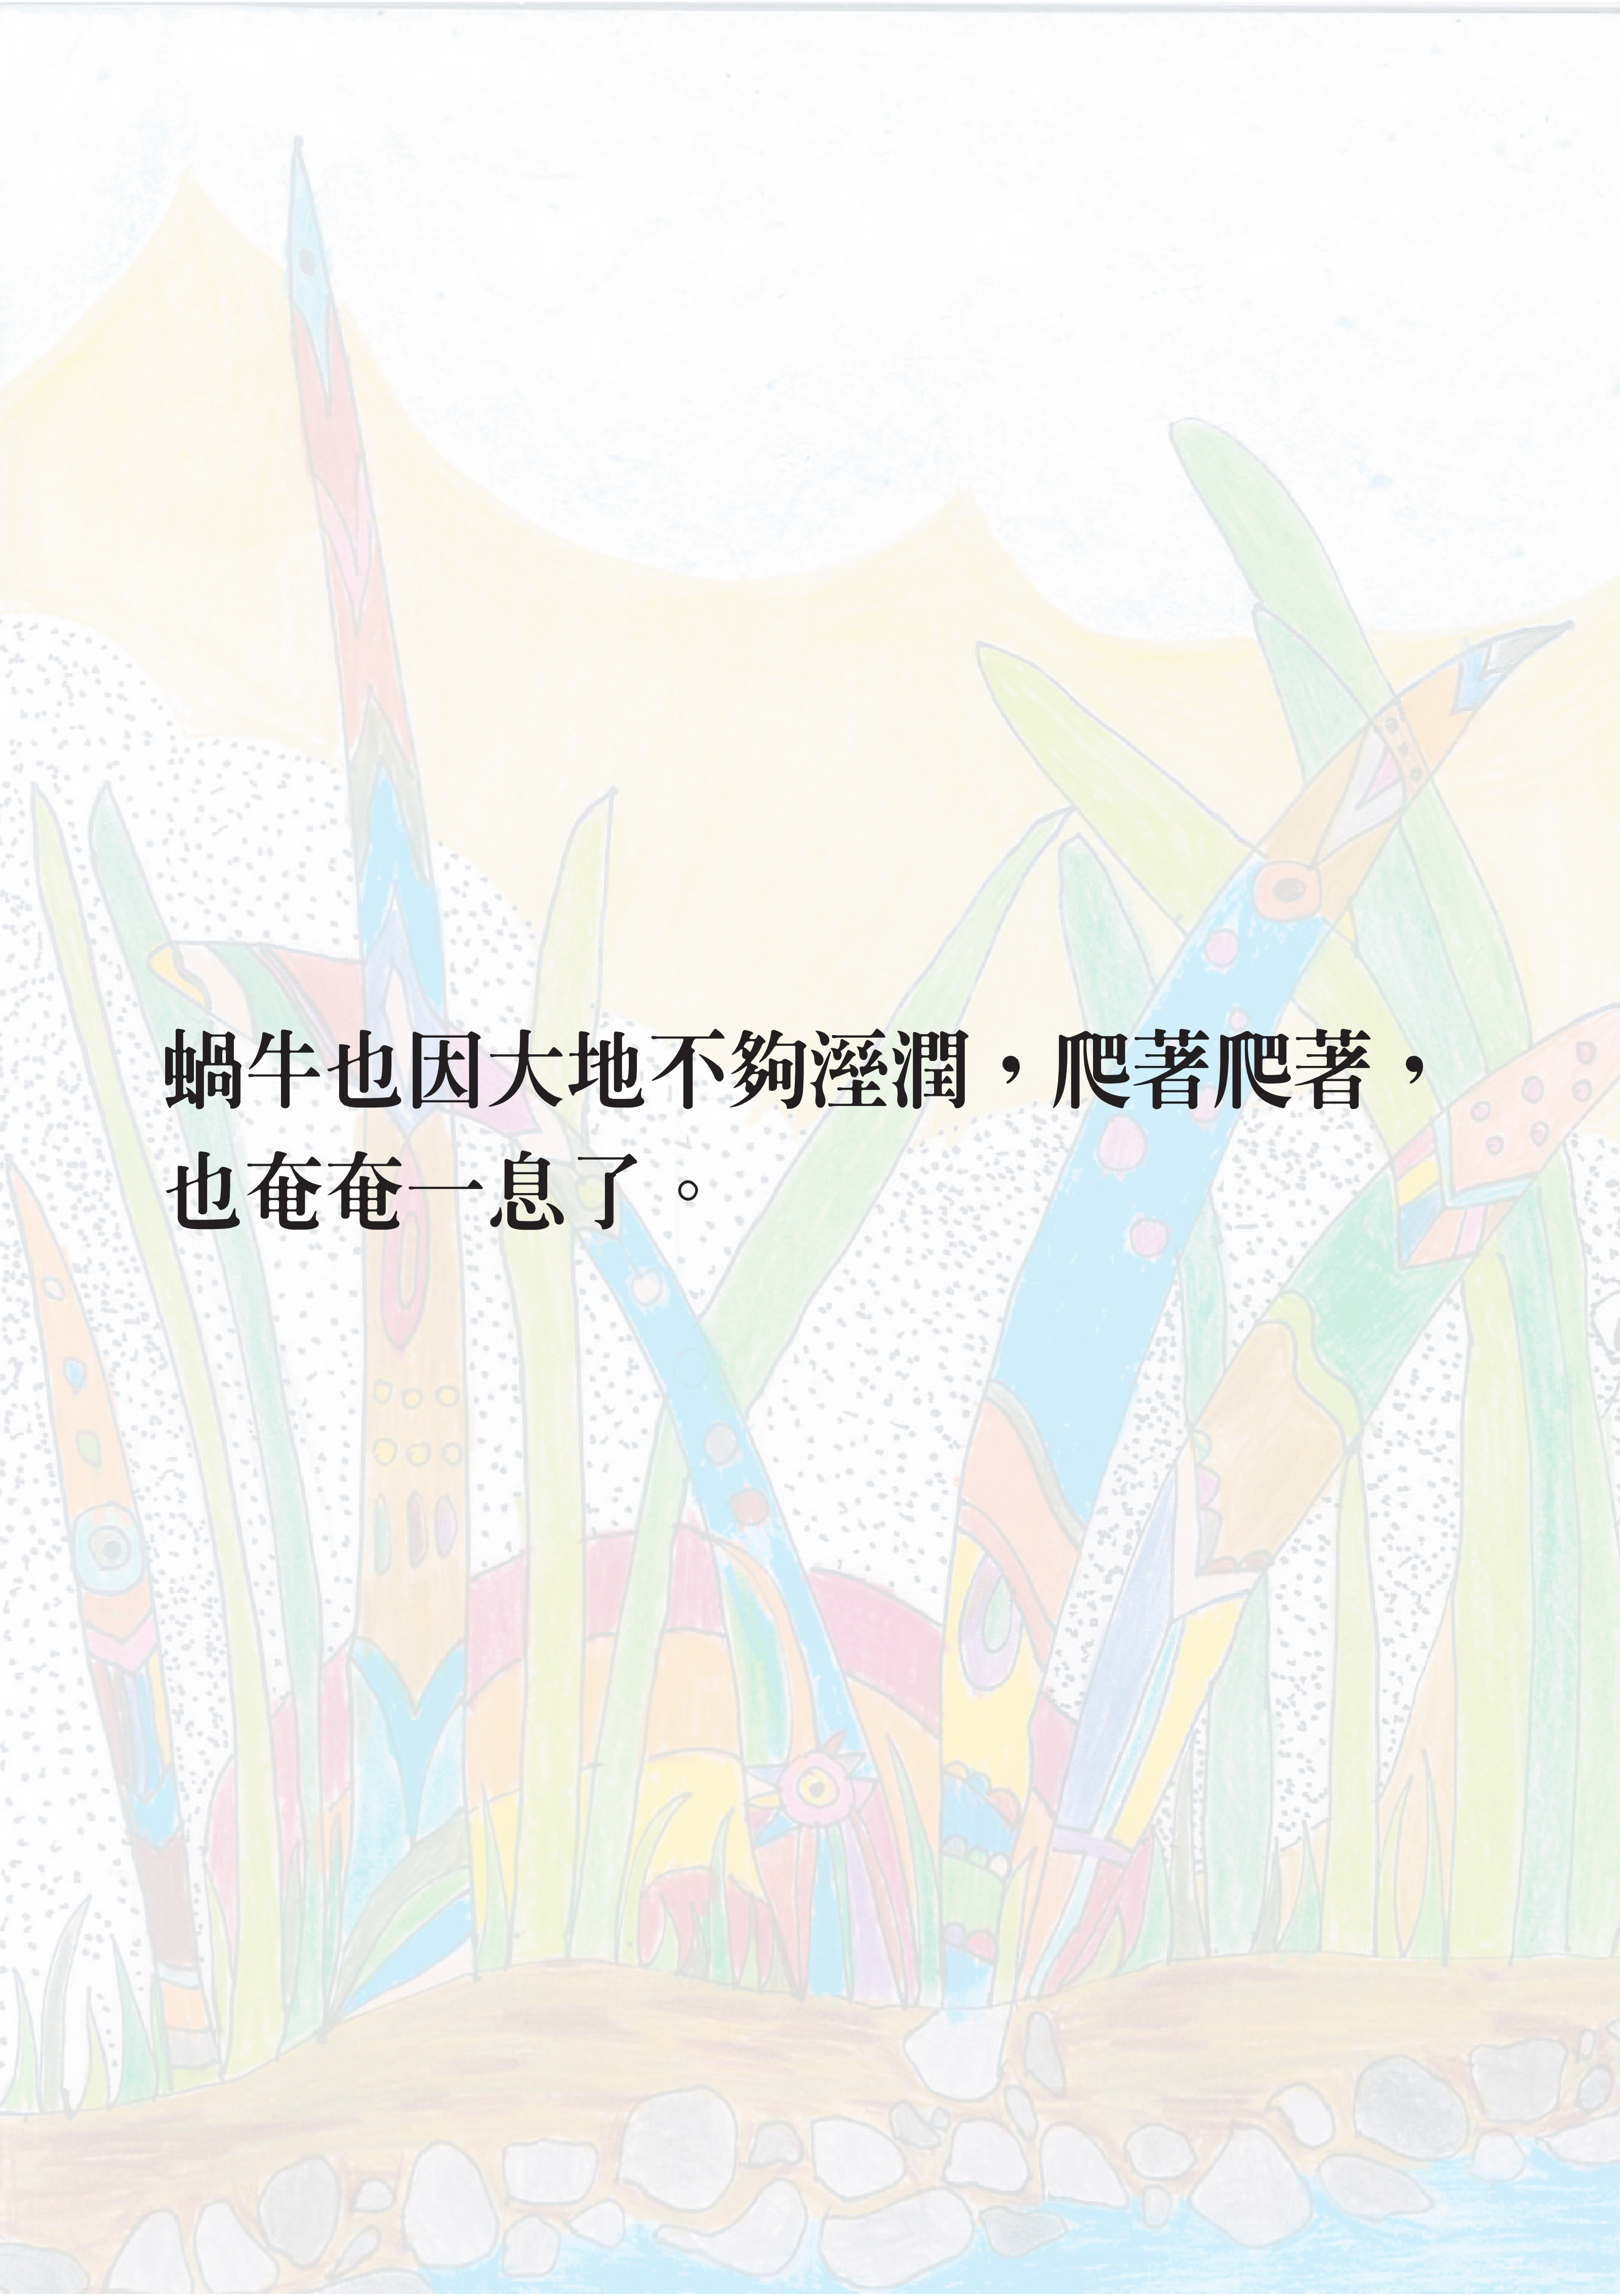

大象也竭力把牠引以爲傲的長鼻伸向
天空，渴望能天降甘霖。

A colorful illustration of a village scene. In the foreground, a brown, rocky path leads towards a village. On the left, there is a tall, multi-tiered castle with a blue roof and various colored sections. To the right of the castle, a cat with orange fur and a blue collar is standing, looking towards the right. The background features rolling hills in shades of yellow and white, with a light blue sky. The overall style is whimsical and childlike.

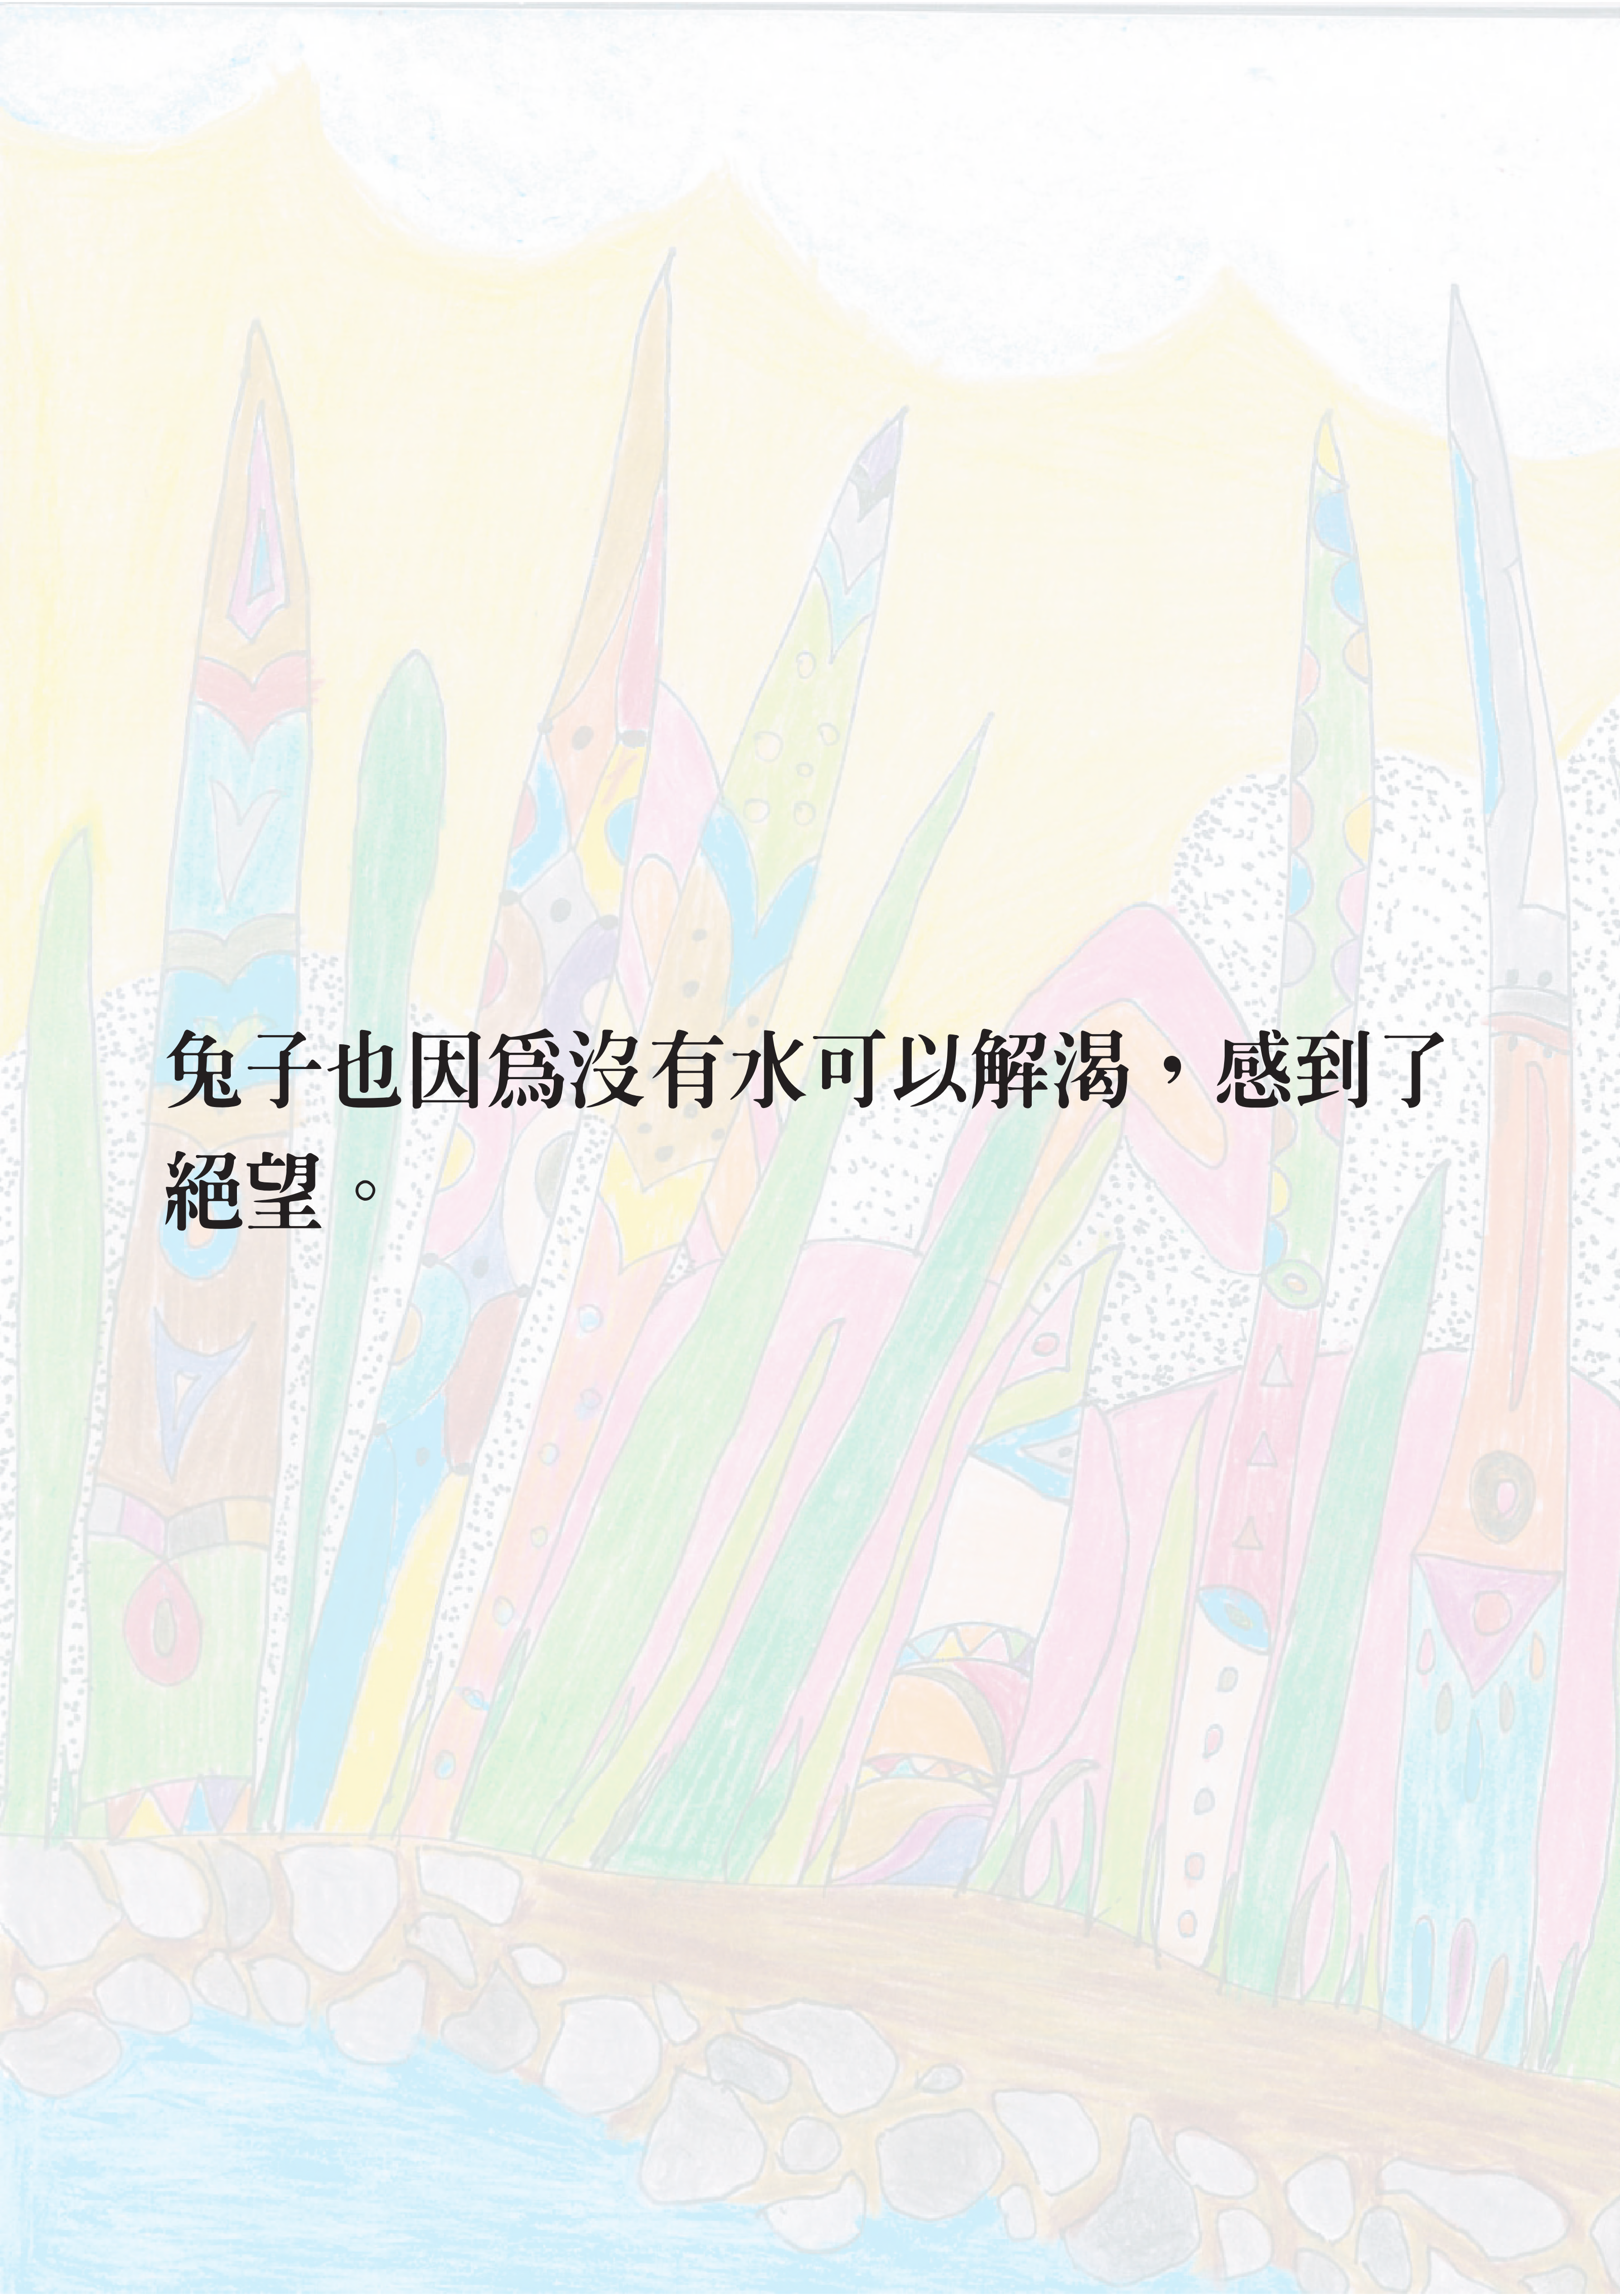

就連貓咪也向老天爺祈禱著，求祂憐憫降下大雨。

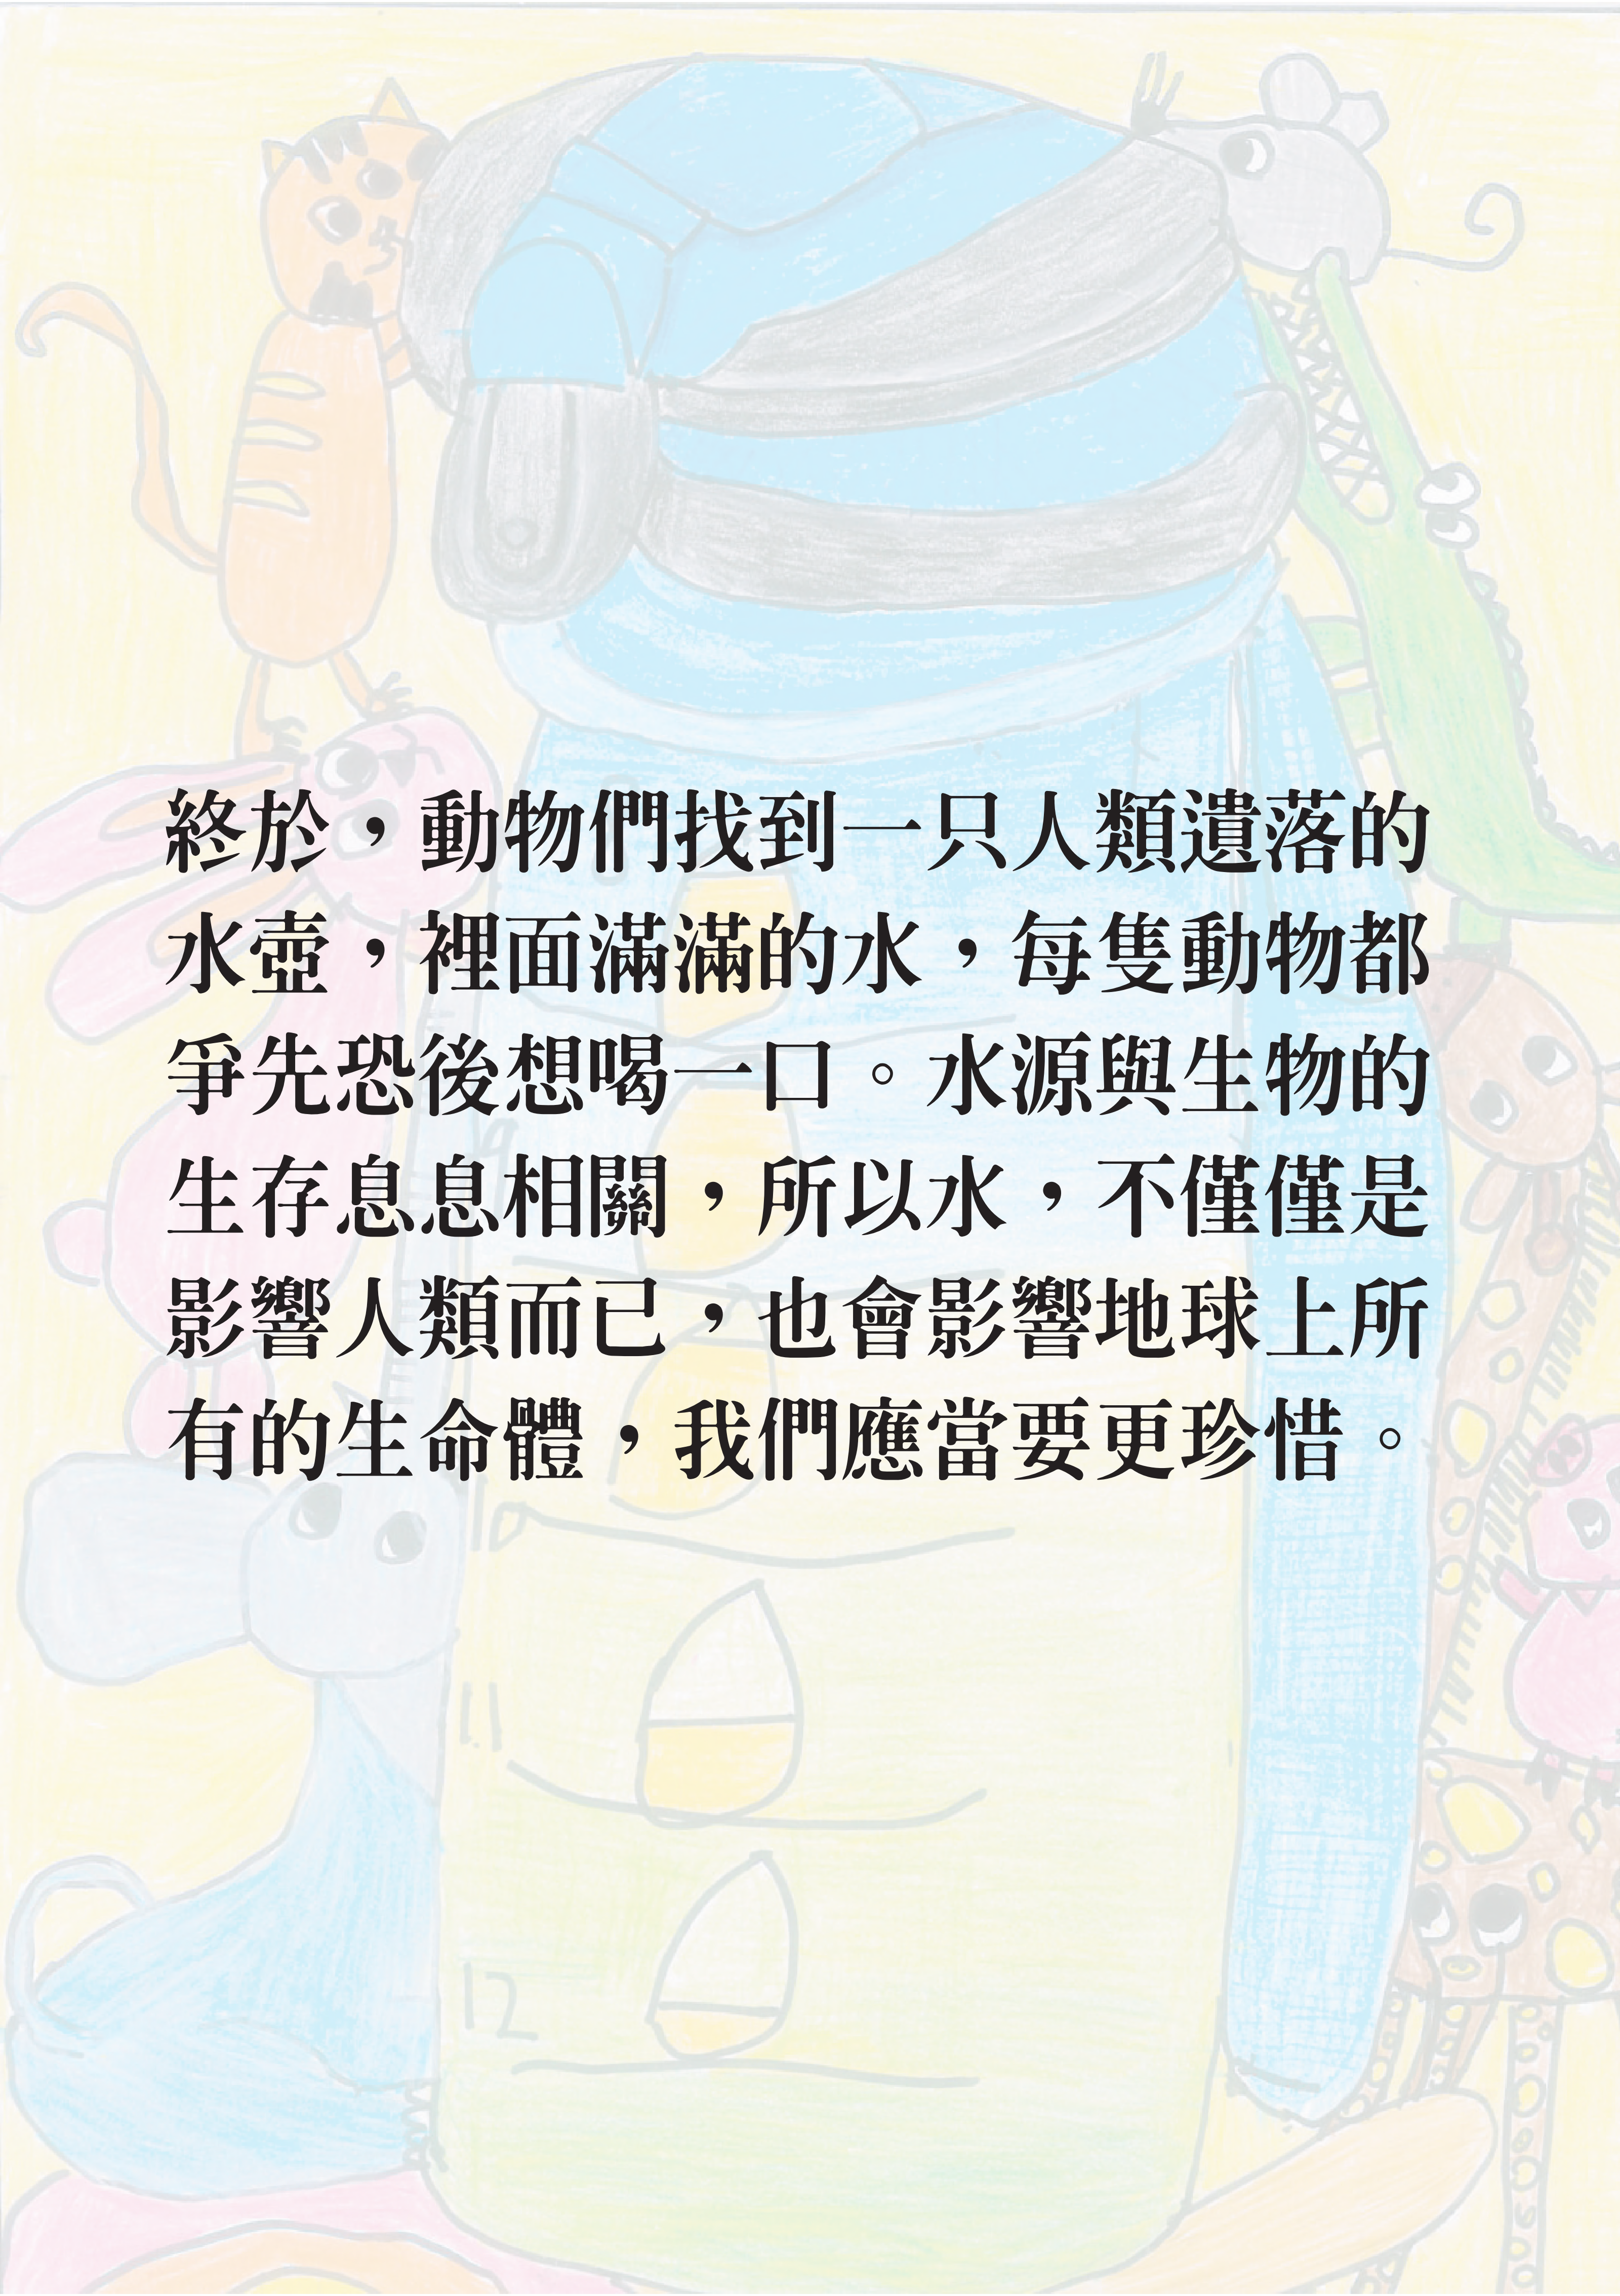

蝸牛也因大地不夠溼潤，爬著爬著，
也奄奄一息了。

The background is a vibrant, abstract illustration. It features several tall, slender, stylized plants or reeds in various colors like green, yellow, pink, and blue. These plants have intricate patterns and shapes, some resembling traditional Japanese motifs. At the bottom, there's a body of water in shades of blue and green, with a rocky shoreline in the foreground. The overall style is whimsical and artistic, with a soft, painterly texture.

兔子也因爲沒有水可以解渴，感到了
絕望。

終於，動物們找到一只人類遺落的水壺，裡面滿滿的水，每隻動物都爭先恐後想喝一口。水源與生物的生存息息相關，所以水，不僅僅是影響人類而已，也會影響地球上所有的生命體，我們應當要更珍惜。
