〈誰違反了自然法則〉

地球暖化，氣候的改變，危及物種生存的穩定，破壞了自然生態，我們應立即採取行動減緩氣候變遷，與自然環境共生共好萬物才能生生不息。

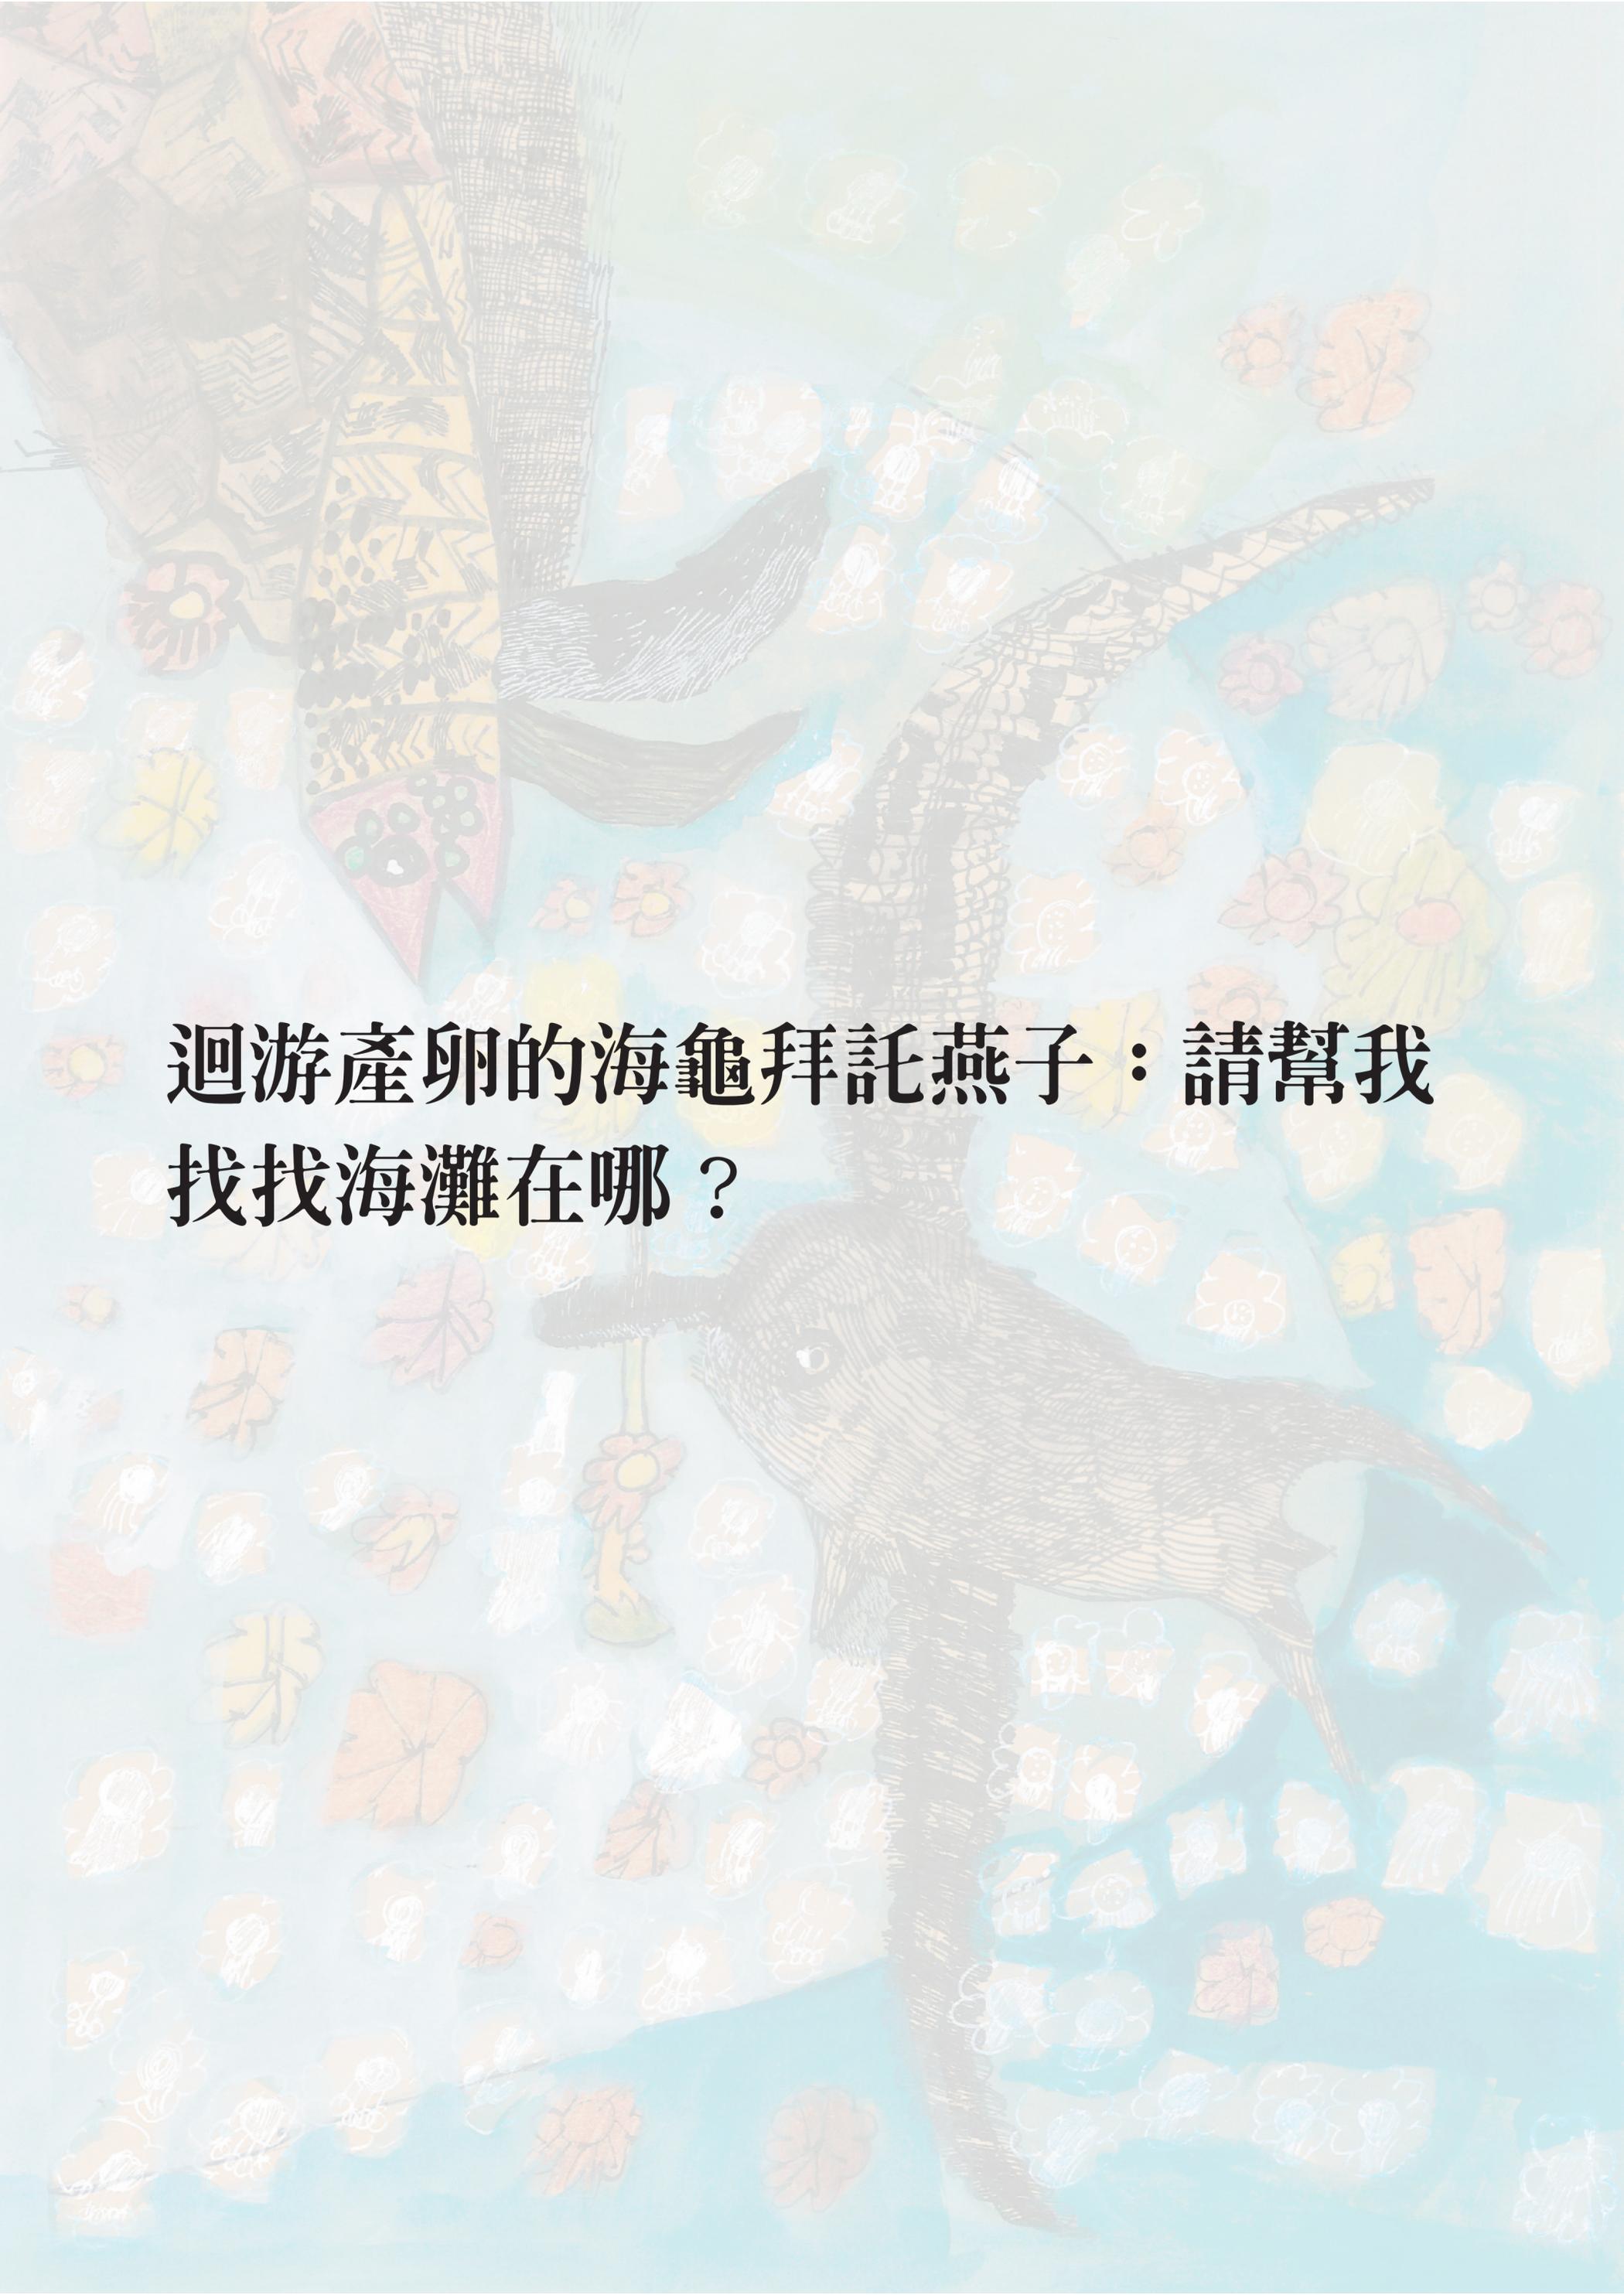

在海水開始上升前，為躲避被大海吞沒，自然中的慢活者—蝸牛，正努力地往上爬呀爬！

A whimsical illustration of a spotted whale in a city. The whale, with a yellow and green spotted pattern, is shown from a side profile, swimming upwards. Its eye is large and white with a black pupil. The whale is positioned in the center of the frame, with its head near the top and its tail near the bottom. The background is a dense, textured cityscape with various buildings and structures. The buildings are rendered in a stylized, almost abstract manner, with some having windows and others having unique shapes. The colors used for the buildings are muted, including shades of brown, green, and blue. The overall style is reminiscent of a watercolor or a soft, textured painting. The text "聰明的海豚，也迷路游進了城市裡！" is overlaid on the whale's body in a bold, black font.

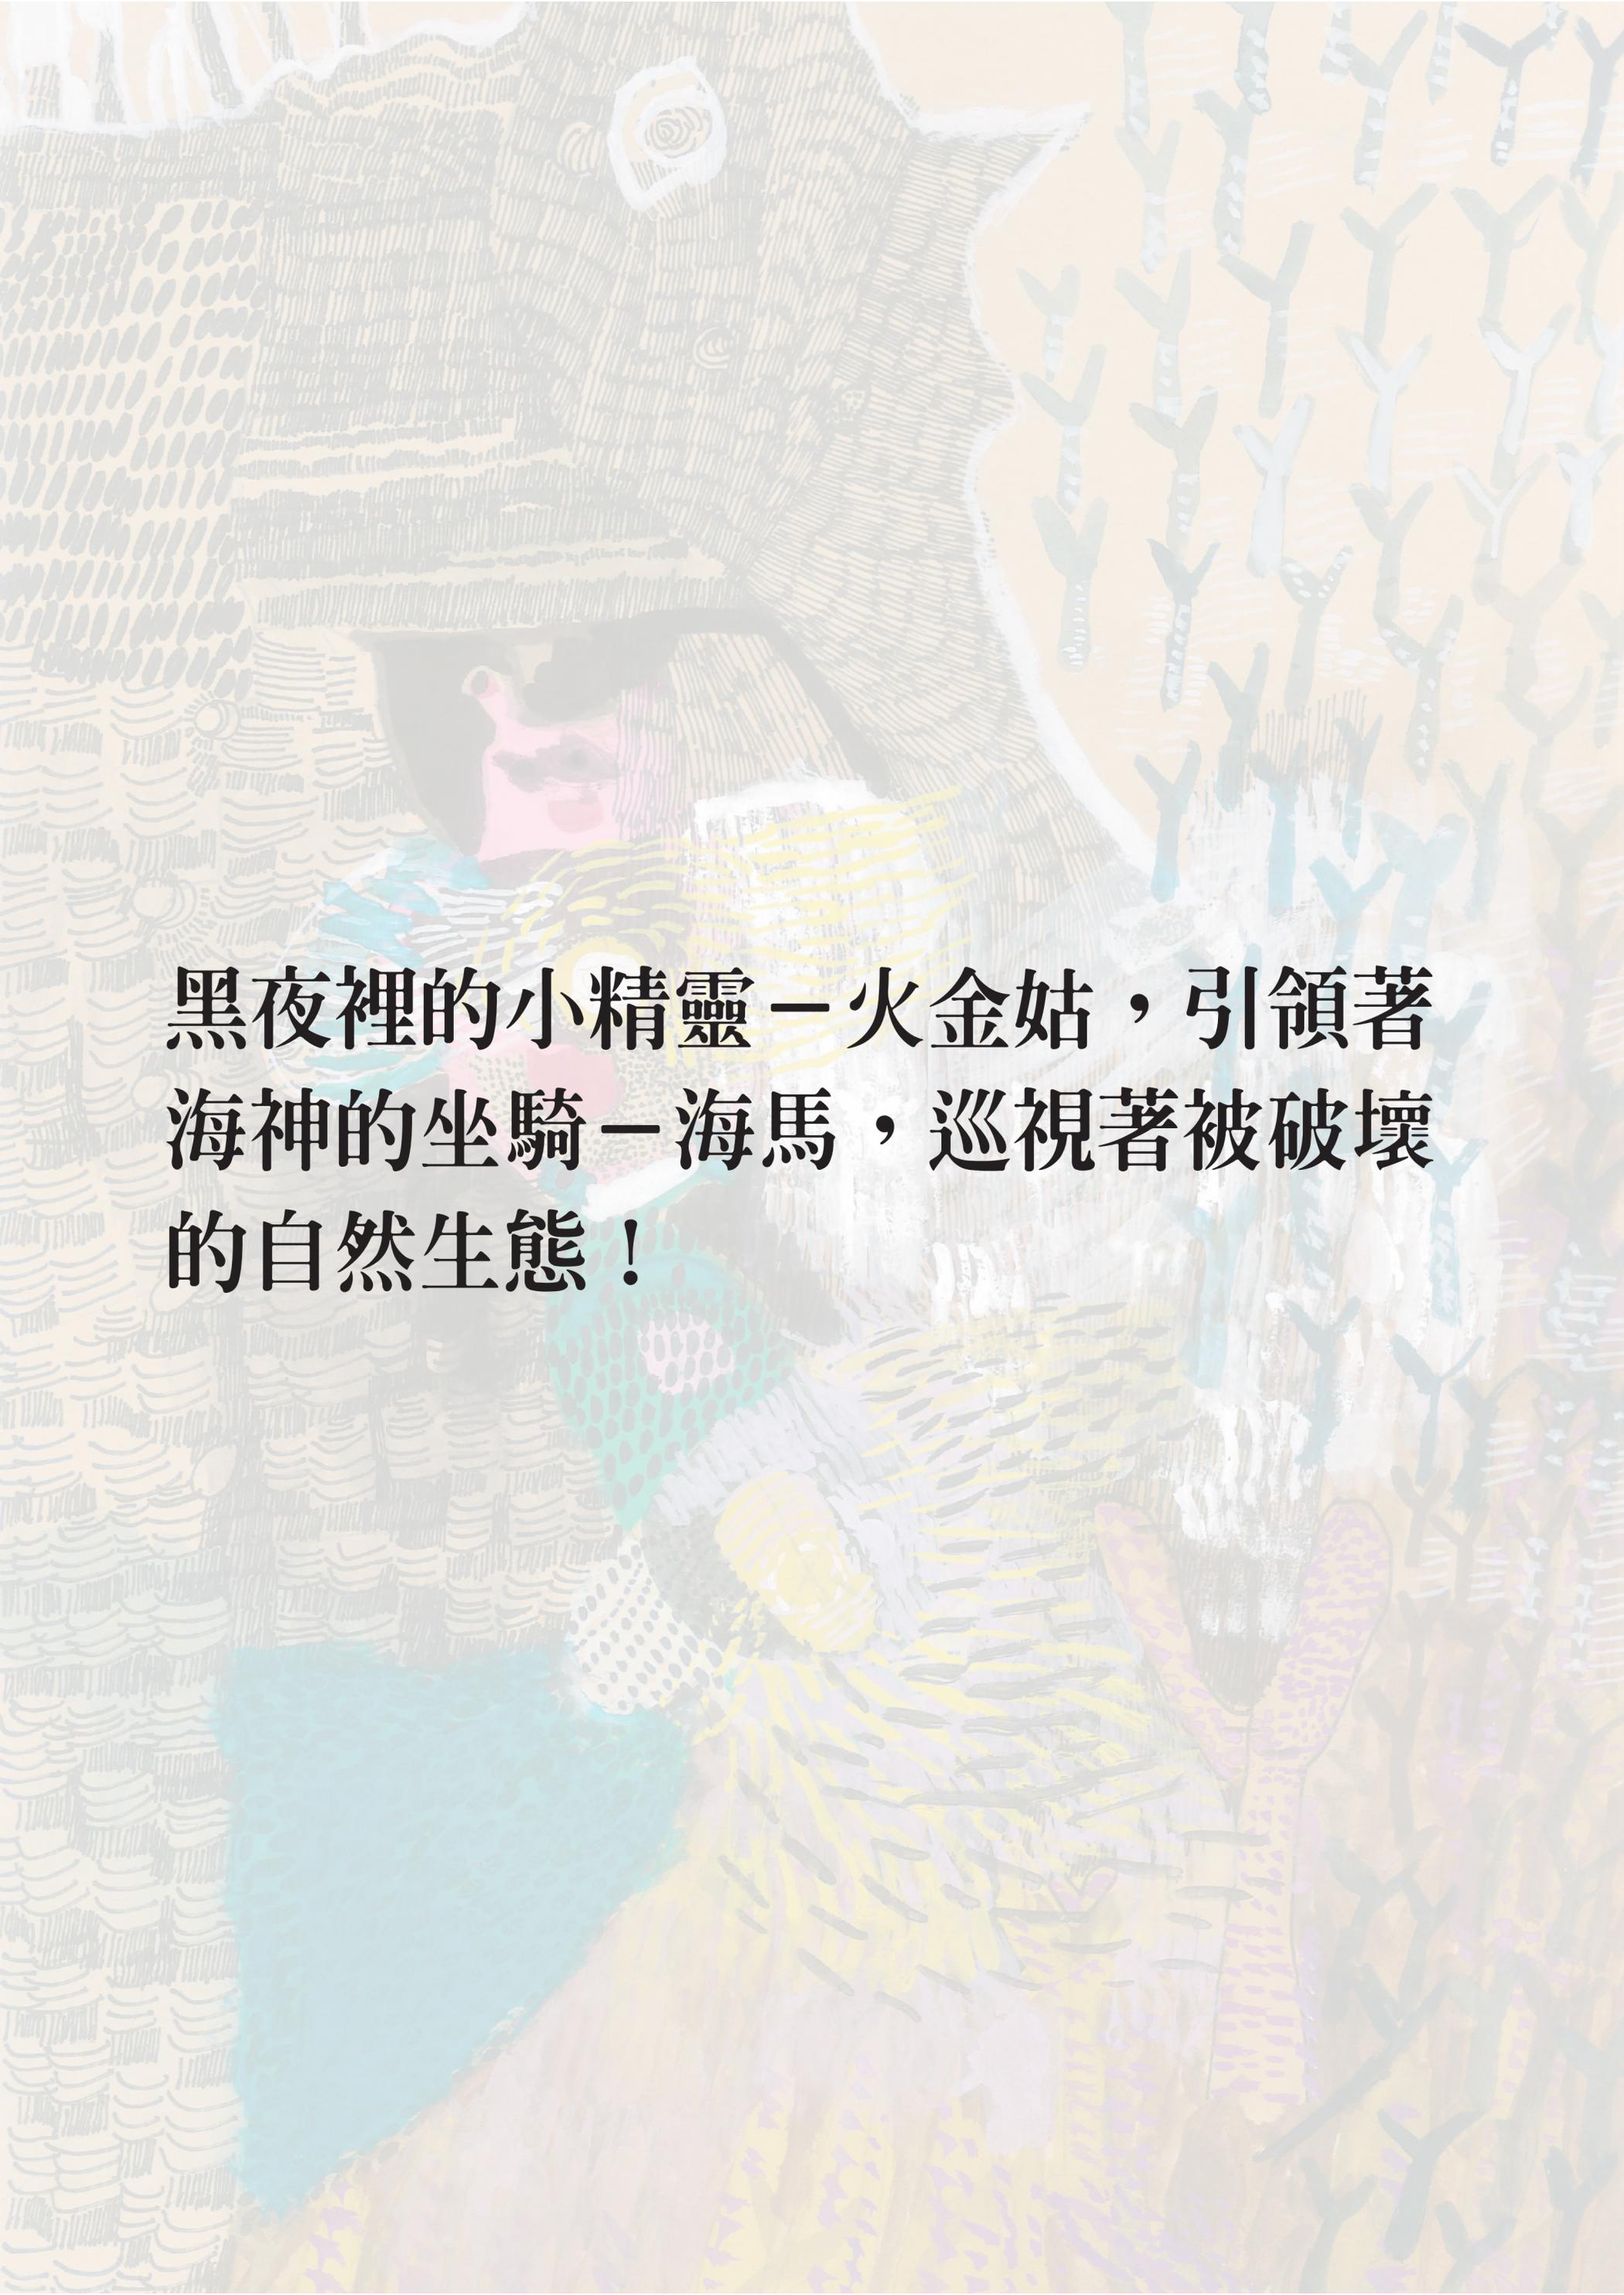

聰明的海豚，也迷路游進了城市裡！
