

The background image is a deep blue, monochromatic underwater scene. In the center, a large whale, possibly a humpback, is swimming towards the viewer. Its head is in the foreground, and its body extends into the background. A large, light-colored, curved object, likely a baleen or a piece of whale skin, is visible near its head. Above the whale, a large school of small fish is swimming in a curved path. Several other larger fish are visible in the foreground and background, swimming in various directions. The overall atmosphere is serene and mysterious.

# 鯨落

# 自我介紹及創作理念

## 〈鯨落〉

我是同欣，我喜歡自由，喜愛大自然。2022年，當我第一次知道「鯨落」這個名詞，覺得非常感動，鯨魚，是深海裡最巨大的生命體，然而，即使在生命消逝之後，鯨魚仍以軀體餵養著海洋裡的其他生命，甚至墜落到最深的海底，鯨魚的骨幹也成為其他生命的新聚落，讓大海得以永續循環、生生不息，生命的消長，是如此的神奇，也充滿了慈悲，也因此「鯨落」成為我此次創作主題。
